PROFESSIONAL SUMMARY

Computer Engineering student skilled in MERN stack and Python, with experience building full-stack and IoT-based applications. Developed scalable systems including event booking platforms and ML-based solutions, focusing on real-world problem solving.

EDUCATION

Bachelor of Technology in Computer Engineering,

Marwadi University (NAAC GRADE A+)

CGPA : 7.06

[2022 - 2026]

Higher Secondary

BSEB [2018 - 2020]

Percentage : 76%

Matriculation

BSEB - 2018

Percentage : 58.2%

TECHNICAL SKILLS

- **Languages:** C, Java, JavaScript, Python
- **Frontend Technologies:** HTML5, CSS3, React.js
- **Backend Framework:** Node.js,
- **Databases :** SQL, MongoDB
- **Developer Tools & Platforms:** Git, Visual Studio Code
- **Core Subjects:** DSA, DBMS, Operating System, OOP, ML, AI.

INTERNSHIP EXPERIENCE

1. Python Development Intern

[June 2024 - July 2024]

Octanet Services Pvt. Ltd., Ahmedabad, Gujarat

- Created ATM system supporting more than four banking operations with error handling
- Debugged and optimized Python code reducing runtime errors

2. Web Design Intern – MERN Stack

[May 2025 - June 2025]

Brainybeam Info-Tech Pvt. Ltd., Ahmedabad, Gujarat

- Built responsive UI components using MERN stack improving user experience
- Worked on real-time projects and backend API integration.

PROJECT WORK

1. IOT Based Entry-Exit Monitoring System

Marwadi University, Rajkot, Gujarat

- Designed IoT system handling using RFID, Arduino, and ESP8266, integrated with a
- MERN stack web app for real-time record logging. Enabled timestamped entry-exit
- data storage in MongoDB with a user-friendly frontend.

[Jan 2024 - Mar 2024]

2. Event Booking System With Ticketing and Scheduling

[May 2025 - June 2025]

- Developed a MERN-based Event Booking System supporting 100+ users, with secure authentication, real-time booking, and admin dashboard

3. Fake News Detection System

- Built ML-based Fake News Detection system achieving 85%+ accuracy processing multiple input formats (text, audio, video) using FastAPI backend
- Trained and optimized Machine Learning models to accurately classify news as real or fake across text, audio, video, and news link

[Sep 2025 - Dec 2025]

CERTIFICATION

Python Data Structures | To learn Advance Programming Techniques

Coursera [March 2023 – August 2023]

SOFT SKILLS

Team Work | Communication | Leadership

ADDITIONAL INFORMATION / CLUB MEMBERSHIP / AWARDS HONORS

- Member of Debating & Leadership / MU Students' MUN & debate committee (2023 - Present)
- **Interests:** Book Reading **Languages Known:** English | Hindi
